

Cross Country
2017 Handbook

Thank you for your participation on the New Hanover High School Cross Country team this season. Over the past decade our program has transformed from one of the smallest 4A programs in the area to a large, competitive team on the local, regional and state level. We have been and are blessed with dedicated athletes and an increasingly spirited running culture. It is an honor to lead this team and to continue to grow a tradition of excellence within our program.

As your coaches our goal is to make you the best possible runner, and more importantly person, that you can be. We look forward to the opportunities ahead, the milestones we will set, and the goals we will accomplish. Remember to embrace the process of our sport and prioritize your training but also remember that balance in your life is vitally important. Running is an incredible sport, outlet, and stress reliever, and when done correctly should bring increased happiness to your daily life.

The main goal as an individual on this team is to be the “you” that you can be on a daily basis. On runs, in workouts and in races we will strive to do the best we can given those daily conditions. Positive results in this sport take a consistent, disciplined effort, but the growth you make will be one of the most rewarding experiences that you will have in your high school experience. You will always remember your time with this team, the successes, and the road traveled together. With hard work, a vision for greatness and mental toughness there is nothing that we cannot accomplish as a team. We are looking forward to another memorable season!

Sincerely,

Your Coaches

A. Our Team, Our Vision

Making the Team

Cross Country is unique in that there is no bench, everyone participates and competes at the same distance on the same course for that given day. We encourage as many athletes as will dedicate themselves to our mission to join the team, however the following are the requirements to make the team:

1. Complete the 3K Time Trial, running the entire distance.
2. Give your best effort every day, and support others in doing the same. You must show and have the desire to improve in your performances regardless of position on the team.
3. Maintain satisfactory attendance for practice and meets.

Summer Schedule (June and July)

Mondays 7:30-9:00am @ Greenfield Lake (Park at Tennis Courts off of Park St.)

Tuesdays 7:30-9:00 am @ Forest Hills Elementary

Wednesdays 7:30-9:00 am @ UNCW Track

Thursdays 7:30-9:00 am @ Alderman Elementary

Fridays 7:30-9:00 am @ Cowan St. Downtown (One St. over from PPD, park on side of street or cul de sac)

*any schedule changes will be announced via Remind Text and/or Email

Dead Periods

Captain led practices or on your own **July 3rd-9th**, and **July 17th-23rd**. Public School coaches are not allowed to lead practices during these weeks based on NCHSAA rules.

Remind 101

Sign up for text message updates throughout the season:

To sign up enter the number **81010** into the phone number line and type **@newhanxc** in the text line.

In Season Practice Schedule

Practice will take place Monday-Saturday starting July 31st. See separate practice calendar for specific locations and times each day. The general practice schedule will, most weeks, look like the following example:

Monday- 3:50-5:30PM (Long Run)
Tuesday- 3:50-5:30 (Interval Workout)
Wednesday- 3:50-5:30 PM (Recovery Run)
Thursday- MEET or 3:50-5:30 PM (Tempo Workout)
Friday- 3:50-5:30 PM (Recovery Run/ Fun Run)
Saturday- MEET or 7:30-9:00 AM (Interval/Tempo Workout)

All athletes are expected to attend practice each day. When athletes cannot attend they must be excused through a parent email to justin.fischetti@nhcs.net. More information on excused absences is below. On days we have out of town meets on Saturdays, practices will be hosted by an assistant coach or non-traveling seniors.

Excused Absences

Athletes may have to miss practice for a number of reasons during the school year. If you have to miss practice you must have a parent make contact with the coach to excuse you. This can be in person, or by email at justin.fischetti@nhcs.net. Please monitor your excused absences during the competitive season and ask out of practice for reasons of true need. As your coaches we will respect your health, family, and school related needs but also wish to keep the integrity of our practices strong. Thank you for your understanding on this matter.

Unexcused Absences

For unexcused absences we will operate on a three strike policy. Unexcused absences will include leaving practice early without permission, skipping out on a run during practice without permission etc. The strike policy will operate as listed below:

Strike 1- Athletes are given warning, will have meeting with coach
Strike 2- Second warning, no travel to the next meet, parent meeting will be requested
Strike 3- Dismissal from team
-Coaches discretion will be used within this policy, and extenuating circumstances will be considered

***Our team will abide by all school and county rules at practice and at meets. We expected all of our athletes to represent New Hanover High School in a positive manner. Violations of school rules could additionally result in loss of privilege or dismissal from the team.**

Tardies

Practice times are setup with a purpose and all of this time is needed to accomplish our daily goals. Please make sure to be on time! Tardies will result in work related tasks for the team at practices and meets.

Motivational Incentives

Mileage Incentive Gifts

-As you log mileage through the summer/fall you will qualify for the following levels of incentive gifts:

1. White Level- Mile 100 Drawstring Bag & Magnet
2. Orange Level- Mile 250 "Wildcat Swag" Selection & Sticker
3. Black Level- Mile 500 XC T-Shirt
4. Diamond Level- Mile 750 Hanover XC Sweatshirt
5. Silver Level- Mile 1000 Performance Shirt
6. Gold Level- Mile 2000 Duffle Bag

Runners of the Week

-Each week we will name a runner of the week who will receive a team shirt

-Ways to Log Your Runs

A. Strava App***

Track your runs on your phone using GPS. Track your friends, join challenges and share activities. This is the simplest form of mileage tracking out there.

B. Logarun.com

Sign up for a FREE logarun.com account. You can record all your runs, distances, paces, goals, mileage, shoes and much more. Add New Hanover High School under teams.

***Only Certified mileage will be counted toward incentive gifts. Certified runs include attendance/effort at summer practice, GPS runs or mileage certified by parents if not done at practice. ***All mileage must be logged for incentive gifts.**

***Be honest in your comments about your runs. It will help you notice your strengths, growth across the season and areas to improve.**

Travel/ Weekend Meets

All athletes will not be able to travel to every meet. We will work very hard to get as many athletes to local meets as possible. For Invitational/ Weekend meets we will be able to take 10 athletes per gender some weeks and 20-21 athletes per gender other weeks. For those races we will determine who travels according to race performances in the preceding weeks.

*The Varsity Team is considered the Top 7 athletes on the team depending on the race (sometimes ten are allowed). Seeding and race distinction in meets will be determined by previous race results. Coach's discretion will be used when selecting athletes for meets and/or race distinctions.

B. Maximize Your Potential

The Runner's Edge

In our sport, running more and in a correct way is the best way to improve our times. Cross Training activities such as biking and swimming also provide significant gains in our sport. Outside of running this is a top 10 list of “Things You Can Do When Not Running” to become a faster runner.

Top 10 “Things You Can Do When Not Running” to become a faster runner

-From Mark VanAlstyne- UNC Cross Country Coach

10. Periodic Testing- Health & Fitness Analysis
9. Logging- Monitor your training and development
8. Strength Training- High rep, low impact strength development
7. Mobility Work- Drills, drills, and more drills!
6. Biomechanical Analysis- When able, have your body evaluated to find areas to develop
5. Flexibility Work- Stretch, stretch, and repeat!
4. Active Recovery/Cross Training- Bike, Swim, Aqua Jog etc.
3. Nutrition- Eat to recover, include a balanced diet
2. Balance- Make time for yourself, family, friends and other hobbies
1. Sleep- Rest for physical and mental health- 7 hours a night minimum- 8-9 hours ideally

Mental Toughness

Finding your mental edge is just as important as your physical ability. Here are ways to improve your mental focus and alertness during workouts and races:

- **Set Goals-** Set place and time goals throughout the season
- **Preparation-** Know your splits needed to hit a time, map out your race prior to the start
- **Imagery-** Spend time imagining what your race will look like and seeing your race plan through. Find confidence and realization in this mental planning.
- **WANT IT-** Visualize success and go after it!

GET A WATCH –USE IT EVERYDAY

Run with a watch to gather information about your pacing. You will also use a watch when given a target time to aim for in a workout.

Training Shoes

Invest in a quality pair of training shoes. You will use this pair every day (or rotate with another pair), and run many miles on them. They need to provide cushion and support .They need to be replaced around 400-500 miles. By keeping up with your shoes (and logging your runs), you will prevent many injuries. We recommend Omega Sports or Fleet Feet Sports in town for running specific knowledge and guidance.

Racing Spikes

Racing spikes are lighter and provide better grip on different types of cross country surfaces. Each step you take in a lighter racing shoe adds up to precious seconds in a race.

USA Track and Field Map It or Mapmyrun.com

Google “USA Track and field map it” or “map my run”. These are very simple tools to map the distances of your runs.
